PROFILE SUMMARY

First-year B.Tech Computer Science student at Amity University Chhattisgarh, passionate about AI/ML, problem-solving, and scalable system architecture. Building hands-on experience with Python, Generative AI, data analytics, and cloud infrastructure. A proven hackathon leader and active student community organizer, driven to build functional, production-ready AI solutions.

EDUCATION

Amity University Chhattisgarh

Aug 2025 – Aug 2029

Bachelor of Technology (B.Tech), Computer Science

SKILLS

AI & Specialized:	Generative AI, Prompt Engineering, Data Analytics, LiDAR, UI/UX Design
Languages:	Python, C++, C, JavaScript
Frameworks & Cloud:	React, Next.js, Google Cloud Platform (GCP), Firebase, Supabase, Vercel, Docker
Core & Tools:	Data Structures & Algorithms (DSA), Web Dev (HTML, CSS), GitHub, Figma, Tableau

EXPERIENCE & LEADERSHIP

Google Developer Program (GSA)

2026

Active Member & Premium Tier Badge Holder

- Achieved the Premium Tier badge through the completion of 13+ technical certifications.
- Competed and submitted a prototype for real-world problem-solving in the Google Solution Challenge 2026 (Hack2skill x Google Developers), earning the Solution Challenge Badge.

CODICIAN Club AUC, Amity University

Sep 2025 – Present

Student Coordinator & Event Organizer

- Organized the flagship program "Beyond the Prompt - Designing & Deploying Production-Ready AI Agents" (Apr 2026).

GeeksforGeeks Student Chapter, Amity University

Mar 2026 – Present

Technical Team Member

- Driving technical workshops, curating educational content, and assisting in managing chapter activities.

PROJECTS

DiagnoVerse AI (Health Tech / Generative AI)

2026

- Built a full-stack rural health platform using Next.js, Firebase, and Gemini API; presented MVP as Team Lead at NHIDE-2026.
- Engineered within Google Antigravity; integrated generative AI agents for conversational diagnosis in Hindi, English, and Hinglish.

SafePath / SafeRoute (Safety Tech)

2026

- Developed a community safety application utilizing Google Cloud Platform (GCP) and Supabase for scalable backend architecture.
- Implemented AI-based safety scoring and SOS notification features for real-time emergency response.

Codician Anti-Proxy System (Web / Vercel)

2026

- Developed and deployed a highly concurrent geofencing-based attendance application on Vercel to manage 500+ users.

TradeTrack (Business / FinTech)**2026**

- Developed a comprehensive business dashboard to help small businesses manage revenue, track expenses, and monitor inventory.

Echoes of the Past (VR / Heritage)**2025 – 2026**

- Developing an immersive heritage preservation platform utilizing LiDAR scanning and 3D modeling.

EduSetu (EdTech)**2025**

- Developed a learning navigator platform providing structured educational resources and tailored roadmaps for secondary students.

CERTIFICATIONS & ACHIEVEMENTS

- **Hackathons:** Led teams at Hackboard, Aspire X, and NHIDE-2026. Participant in Smart India Hackathon (SIH) 2025 and Algostorm 1.0.
- **AI & Data:** Certificate of Completion for Claude 101 (Anthropic); Daikibo Data Analytics Job Simulation; Tata GenAI Powered Data Analytics Job Simulation.
